GVR&S /STUDENTS WORK SHOP 2021-22-Reg

It is informed that all the students of GVR&S- ELECTRONICS & COMMUNICATION ENGINEERING B.Tech our college is planning to conduct A TWO DAY WORKSHOP ON “PCB DESIGN”2021-22 event on 18-03-2021 TO 19-03-2021. In this regard, we invite all students and faculty members to participate and make the function a grand success.

A TWO DAYS WORKSHOP ON “PCB DESIGN”

(18-03-2021 TO 19-03-2021)

DAY	<u>18-03-2021 TO 19-03-2021</u>
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr K RAMESH BABU PROFESSOR
TOPIC	“PCB DESIGN”
SESSION OVERVIEW	PCB design is the entire process of creating a Printed Circuit Board (PCB) through collaboration and integration between multiple disciplines and multiple domains which includes electrical, mechanical, software, system, test, and manufacturing. It's a team effort that requires constant bi-directional communication
NO OF PARTICIPANTS	58

REPORT ON

Two-day Workshop on PCB DESIGN at GVR&S

A two-day workshop was held under the joint collaboration of the ECE Department and Embedded Wings, Visakhapatnam on 18/3/21-14/3/21. The first session was entirely devoted to the introduction and the elaboration about the software's used in the PCB design.

The Resource person Mr. Ajay interacted with the students and faculty and threw much light on the area of Printed Circuit Board and outlined various processes involved in distinguishing a PCB. He also explained at length various kinds of software used in PCB design, the theoretical aspects and also its application and implantation. In the afternoon session of the first day of workshop the resource person touched upon the subject of Proteous software.

In the Saturday session, i.e. the second day of the workshop, Mr. Ajay, the resource person offered assistance to the students in working on the software to design PCB, integrating with it the Proteous software.

The Two-day workshop turned out to be a grand success, as valuable inputs on PCB design were delivered by the resource person, Mr. Ajay Kumar, who enabled the students to the gain- hands on experience on PCB by exposing them to the practical application and implementation of PCB design, using Proteous software.

Dr. B BHANU PRAKASHI, the principal in his inaugural address said that GVR&S, in its endeavor to shape up many talented technocrats, has been conducting a wide range of workshops, with the objective of felicitating the enhancement of the student's skill set, and making them industry-ready. The PCB design workshop would immensely benefit the ECE students in forming a several intricate and advanced software technology. DR .Y SRINIVASULU, HOD, , ECE, Faculty and students participated in the workshop.

Guest Lecture on " VLSI Design "

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

1	Name of the Activity/Event	Guest Lecture on " VLSI Design "		
2	Date of Activity/Event	05/07/2021 to 14/07/2021		
3	Organized by	Department of Electronics And Communication Engineering		
4	Place of Activity/event	Online		
5	Resource persons / guest / organization	G. Sarala, Intel corporation, Project lead, Bangalore		
6	Type of activity/Event	Guest Lecture		
7	Activity/Event objectives	• This course aims at providing an opportunity for students to enrich their knowledge and skill in developing various solutions for solving engineering problems in the society. • This program serves as a platform for students to work with the recent trends in Electronic simulation related areas.		
8	Participation	STUDENTS	FACULTY	TOTAL
		113	10	123
9	General remarks	1. Introduction to VHDL 2. Subsystem design 3. FPGA and CPLDs		
10	Suggested Improvements	Need Hands-on session and more real time examples.		
11	Enclosures	1. Program report with Snapshots 2. Attendance sheet		
12	Signature of Co-ordinator			

The Electronics and Communication Engineering department has organized a Guest Lecture on "VLSI Design" from 05/07/2021 to 14/07/2021, The Resource person is Mrs. G. Sarala, Intel corporation, Project lead, Bangalore.

The III B.Tech students from the ECE department had attended this Lecture. Total of 123 students attended to this session. In this session resource person covered the syllabus which was related to their curriculum. On the first day she started the session by introducing herself and importance of VLSI in present Scenario.

There are different types of constraints as explained below:

1. Timing constraints:

- These are used to specify maximum delays for particular paths in a design.
- For instance, a typical timing constraint is the required time for an output port.
- The timing constraint guides the optimization and mapping to produce a netlist which meets the timing constraint.
- A typical delay constraint in Leonardo synthesis format is shown below: `Set_attribute_port data_out_name required_time value 25.`
- This constraint specified maximum delay for signal data-out should be less than or equal to 25 library units.

Sarala Gumma
03/25/21 12:28:27
Audio Transcripts
03/25/21 12:28:27
03/25/21 12:28:27
03/25/21 12:28:27
03/25/21 12:28:27
MC routing will be very high compared to enter so tool will find out what is the maximum maximum time it has to reach this point and then route it in such a way that this delay is okay that's being done at Dvyston beach

Explaining about Timing Constraints

Students of III B.Tech actively involved in the session where they recollected related the information and effectively shared their knowledge.

THREE DAYS WORK SHOP ON ELECTRIC VEHICLE BATTERY CHARGING

(14-02-2022 TO 16.02.2022)

DAYS	14-02-2022 TO 16.02.2022
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : Dr.D.Srinivasa Rao DESIGNATION : Associate Professor COLLEGE : PRIYADARSHINI INSTUTE OF TECHNOLOGY
TOPIC	ELECTRIC VEHICLE BATTERY CHARGING
SESSION 1 OVERVIEW	The application note below should help designers make their own electric vehicle battery charging solutions. If required, help is available from the company. The Design Guide is available at Design Your Own Electric Vehicle Battery Charging Solution
SESSION 2 OVERVIEW	The national grid delivers AC (Alternating Current), but electric cars need DC (Direct Current) to charge their battery pack . An AC charger supplies the EV's onboard charger, which then converts the AC power to DC allowing the battery to charge. The size of the onboard charging device is constrained by space.
SESSION 3 OVERVIEW	the EV is connected to AC power, 120V or 240V, and a battery charger in the EV converts the AC power to the DC needed to charge the battery and controls the charging process. In DCFC the DCFC converts the AC power to DC and the DC power is sent directly to the EV battery bypassing the onboard battery charger.

REPORT ON Two-day Workshop on PCB DESIGN at GVR&S

A two-day workshop was held under the joint collaboration of the ECE Department and Embedded Wings, Visakhapatnam on 18/3/21-14/3/21. The first session was entirely devoted to the introduction and the elaboration about the software's used in the PCB design.

The Resource person Mr. Ajay interacted with the students and faculty and threw much light on the area of Printed Circuit Board and outlined various processes involved in distinguishing a PCB. He also explained at length various kinds of software used in PCB design, the theoretical aspects and also its application and implantation. In the afternoon session of the first day of workshop the resource person touched upon the subject of Proteous software.

In the Saturday session, i.e. the second day of the workshop, Mr. Ajay, the resource person offered assistance to the students in working on the software to design PCB, integrating with it the Proteous software.

The Two-day workshop turned out to be a grand success, as valuable inputs on PCB design were delivered by the resource person, Mr. Ajay Kumar, who enabled the students to the gain- hands on experience on PCB by exposing them to the practical application and implementation of PCB design, using Proteous software.

Dr. B BHANU PRAKASH, the principal in his inaugural address said that GVR&S, in its endeavor to shape up many talented technocrats, has been conducting a wide range of workshops, with the objective of felicitating the enhancement of the student's skill set, and making them industry-ready. The PCB design workshop would immensely benefit the ECE students in forming a several intricate and advanced software technology. DR .Y SRINIVASULU, HOD, , ECE, Faculty and students participated in the workshop.

Guest Lecture on " VLSI Design "

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

1	Name of the Activity/Event	Guest Lecture on " VLSI Design "		
2	Date of Activity/Event	05/07/2021 to 14/07/2021		
3	Organized by	Department of Electronics And Communication Engineering		
4	Place of Activity/event	Online		
5	Resource persons / guest / organization	G. Sarala, Intel corporation, Project lead, Bangalore		
6	Type of activity/Event	Guest Lecture		
7	Activity/Event objectives	• This course aims at providing an opportunity for students to enrich their knowledge and skill in developing various solutions for solving engineering problems in the society. • This program serves as a platform for students to work with the recent trends in Electronic simulation related areas.		
8	Participation	STUDENTS	FACULTY	TOTAL
		113	10	123
9	General remarks	1. Introduction to VHDL 2. Subsystem design 3. FPGA and CPLDs		
10	Suggested Improvements	Need Hands-on session and more real time examples.		
11	Enclosures	1. Program report with Snapshots 2. Attendance sheet		
12	Signature of Co-ordinator			

The Electronics and Communication Engineering department has organized a Guest Lecture on "VLSI Design" from 05/07/2021 to 14/07/2021, The Resource person is Mrs. G. Sarala, Intel corporation, Project lead, Bangalore.

The III B.Tech students from the ECE department had attended this Lecture. Total of 123 students attended to this session. In this session resource person covered the syllabus which was related to their curriculum. On the first day she started the session by introducing herself and importance of VLSI in present Scenario.

THREE DAYS WORK SHOP ON ELECTRIC VEHICLE BATTERY CHARGING

(14-02-2022 TO 16.02.2022)

DAYS	14-02-2022 TO 16.02.2022
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : Dr.D.Srinivasa Rao DESIGNATION : Associate Professor COLLEGE : PRIYADARSHINI INSTUTE OF TECHNOLGY
TOPIC	ELECTRIC VEHICLE BATTERY CHARGING
SESSION 1 OVERVIEW	The application note below should help designers make their own electric vehicle battery charging solutions. If required, help is available from the company. The Design Guide is available at Design Your Own Electric Vehicle Battery Charging Solution
SESSION 2 OVERVIEW	The national grid delivers AC (Alternating Current), but electric cars need DC (Direct Current) to charge their battery pack . An AC charger supplies the EV's onboard charger, which then converts the AC power to DC allowing the battery to charge. The size of the onboard charging device is constrained by space.
SESSION 3 OVERVIEW	the EV is connected to AC power, 120V or 240V, and a battery charger in the EV converts the AC power to the DC needed to charge the battery and controls the charging process. In DCFC the DCFC converts the AC power to DC and the DC power is sent directly to the EV battery bypassing the onboard battery charger.

GUEST LECTURE ON AUTOMATIC SOLAR TRACKERS

(07-11-2021)

DAY1	07-11-2021
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME:MR.L.RAJU DESIGNATION:ASSOCIATE PROFESSOR COLLEGE:VIGNAN JYOTHI INSTITUTE OF TECHNOLOGY,HYDERABAD
TOPIC	A GUEST LECTURE ON AUTOMATIC SOLAR TRACKERS
SESSION OVERVIEW	The Automatic Solar Tracker is a system designed to enhance the efficiency and performance of solar panels by maximizing their exposure to sunlight throughout the day. Traditional fixed solar panels have limited orientation, which may result in suboptimal energy generation.
NO OF PARTICIPANTS	40

ONE DAY GUEST LECTURE ON ENERGY CONSERVATION AND MANAGEMENT

(25-03-2022)

DAY	25-03-2022
VENUE	Seminar Hall
RESOURCE PERSON	NAME:DR.V.N MALLESWARI DESIGNATION:PROFESSOR COLLEGE:NRIIT
TOPIC	ENERGY CONSERVATION AND MANAGEMENT
SESSION OVERVIEW	Energy conservation is the effort to reduce wasteful <u>energy consumption</u> by using fewer <u>energy services</u> . This can be done by using energy more effectively (using less energy for continuous service) or changing one's behaviour to use less service (for example, by driving less). <u>Energy conservation</u> can be achieved through <u>efficient energy use</u> , which has some advantages, including a reduction in <u>greenhouse gas emissions</u> and a smaller <u>carbon footprint</u> , as well as cost, water, and energy savings.

THREE DAYS WORKSHOP ON THE HOME AUTOMATION SYSTEM IS CENTRALIZED CONTROL OF HVAC

(04.12.2023 TO 06.12.2023)

DAY1	04.12.2023 TO 06.12.2023
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME:DR.S.SURENDRA REDDY DESIGNATION:PROFESSOR COLLEGE:ASCENT ENGINEERING ACADEMY
TOPIC	THE HOME AUTOMATION SYSTEM IS CENTRALIZED CONTROL OF HVAC
SESSION 1 OVERVIEW	Automation is the practice of utilizing technology to mechanize and streamline tasks and processes that are conventionally performed by human beings. The automation tasks range from simple, repetitive tasks to complex operations, which even require decision-making and problem-solving capabilities. The evolution of automation systems has enhanced efficiency, accuracy, and productivity and also reduced human error and labor costs.
SESSION 2 OVERVIEW	<ol style="list-style-type: none">1. Continued job transformation: Automation will likely continue to reshape job roles, leading to the evolution of skills required in the workforce. Adaptation and up skilling will be crucial to remain employable in an automated world.2. Collaborative robotics: The integration of humans and robots working side by side, known as cobots, will become more prevalent. This collaboration can enhance productivity, efficiency, and safety, particularly in tasks that require both human judgment and machine precision.3. Artificial intelligence and machine learning: Automation systems leverage AI and machine learning algorithms to improve decision-making capabilities. Additionally, it supports learning from data and adapts to changing circumstances. This will enable more sophisticated and autonomous automation processes.
SESSION 3 OVERVIEW	If you are looking to enhance your skills in automation, we would recommend you to check Simplilearn's Automation Testing Masters Program. This program can help you hone the right automation testing skills and make you job-ready in no time.

A ONE DAY SEMINAR ON RESPOSIBLE USE OF SOCIAL MEDIA”

(07-12-2022)

DAY	07-12-2022
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME: DR. A. S PRASAD DESIGNATION: PROFESSOR COLLEGE: WISE CET
TOPIC	A ONE DAY SEMINAR ON RESPOSIBLE USE OF SOCIAL MEDIA
SESSION OVERVIEW	Social networks are one of the major modes of communication today and although their basic idea is built on the concept of connecting with friends and family; the impact of these websites have far outweighed their initial uses. These are forums where people can find friends and adversaries; get connected with like-minded individuals and lead the world to change in both positive and negative ways.

ONE DAY SEMINAR ON RENEWABLE ENERGY AND ENERGY STORAGE

(11-06-2023)

DAY1	11-06-2023
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME:DR.V.N MALLESWARI DESIGNATION:PROFESSOR COLLEGE:NRIT
TOPIC	RENEWABLE ENERGY AND ENERGY STORAGE
SESSION OVERVIEW	Energy storage systems' main uses include balancing the changing load impacts of renewable energies, offering extra services such as frequency and voltage stability, maintaining a stable energy supply, and increasing dependability and spread. The most efficient large-scale storage system in operation. This is a cost-effective and proven technology that provides stability to the electrical system and can generate significant levels of clean energy with rapid response times.

A THREE DAYS WORKSHOP ON “EMBEDDED SYSTEM”

(09-02-2023 TO 11-02-2023)

DAY	<u>19-02-2023 TO 11-02-2023</u>
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D HARSHA VARDHAN ASSOCIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM”
SESSION OVERVIEW	The processor interprets the data using software stored in the computer's memory. Embedded system uses real-time operating systems (RTOS) for communicating with the hardware. The purpose of embedded systems is to control a specific function within a device. They are usually designed to only perform this function repeatedly, but more developed embedded systems can control entire operating systems

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Report on Guest Lecture on “Antennas”

The department of Electronics and Communication Engineering has conducted “Guest lecture on “Antennas” on behalf of IETE which is held on 16/12/2022. All ECE III year students came forward to participate in this event. In this world all the companies are looking for graduates who have fantastic grip responsibilities of engineers and have additional skills in their core domain. With the motive of enhancing the student’s skills, the guest lecturer in the area of Antennas has been organized by The Institution of Electronics and Telecommunication Engineers (IETE) of ECE department. Dr.G Nallathambi, HoD ECE welcomed the gathering. Mr. S Seshagiri Rao, Convener, introduced the resource person and invited Dr. R. Ramana Reddy to discuss on Antennas. Resource Person: Dr. R. Ramana Reddy Vice Principal JNTUA College of Engineering Pulivendula, Andhra Pradesh

Dr. R. Ramana Reddy explained the different wireless services that operate a wide frequency range, they show significant promise in addressing new system requirements, necessary topics the students need to concentrate, the job opportunities in antennas and wireless communications and latest research in antenna design.

All the Students of III year B.Tech ECE actively involved in the session where they recollected, related the information and effectively shared their knowledge.

After the Guest lecture on Antennas session, Dr.G Nallathambi, HoD ECE appreciated the students for their active participation in the event. Mr. S Seshagiri Rao, Convener delivered the vote of thanks

ONE DAY GUEST LECTURE ON ENERGY CONSERVATION AND MANAGEMENT

(25-03-2022)

DAY	25-03-2022
VENUE	Seminar Hall
RESOURCE PERSON	NAME:DR.V.N MALLESWARI DESIGNATION:PROFESSOR COLLEGE:NRIIT
TOPIC	ENERGY CONSERVATION AND MANAGEMENT
SESSION OVERVIEW	Energy conservation is the effort to reduce wasteful <u>energy consumption</u> by using fewer <u>energy services</u> . This can be done by using energy more effectively (using less energy for continuous service) or changing one's behaviour to use less service (for example, by driving less). <u>Energy</u> conservation can be achieved through <u>efficient energy use</u> , which has some advantages, including a reduction in <u>greenhouse gas emissions</u> and a smaller <u>carbon footprint</u> , as well as cost, water, and energy savings.

THREE DAYS WORKSHOP ON THE HOME AUTOMATION SYSTEM IS CENTRALIZED CONTROL OF HVAC

(04.12.2023 TO 06.12.2023)

DAY1	04.12.2023 TO 06.12.2023
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME:DR.S.SURENDRA REDDY DESIGNATION:PROFESSOR COLLEGE:ASCENT ENGINEERING ACADEMY
TOPIC	THE HOME AUTOMATION SYSTEM IS CENTRALIZED CONTROL OF HVAC
SESSION 1 OVERVIEW	Automation is the practice of utilizing technology to mechanize and streamline tasks and processes that are conventionally performed by human beings. The automation tasks range from simple, repetitive tasks to complex operations, which even require decision-making and problem-solving capabilities. The evolution of automation systems has enhanced efficiency, accuracy, and productivity and also reduced human error and labor costs.
SESSION 2 OVERVIEW	<ol style="list-style-type: none">1. Continued job transformation: Automation will likely continue to reshape job roles, leading to the evolution of skills required in the workforce. Adaptation and up skilling will be crucial to remain employable in an automated world.2. Collaborative robotics: The integration of humans and robots working side by side, known as cobots, will become more prevalent. This collaboration can enhance productivity, efficiency, and safety, particularly in tasks that require both human judgment and machine precision.3. Artificial intelligence and machine learning: Automation systems leverage AI and machine learning algorithms to improve decision-making capabilities. Additionally, it supports learning from data and adapts to changing circumstances. This will enable more sophisticated and autonomous automation processes.
SESSION 3 OVERVIEW	If you are looking to enhance your skills in automation, we would recommend you to check Simplilearn's Automation Testing Masters Program. This program can help you hone the right automation testing skills and make you job-ready in no time.

A ONE DAY SEMINAR ON RESPOSIBLE USE OF SOCIAL MEDIA”

(07-12-2022)

DAY	07-12-2022
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME: DR. A. S PRASAD DESIGNATION: PROFESSOR COLLEGE: WISE CET
TOPIC	A ONE DAY SEMINAR ON RESPOSIBLE USE OF SOCIAL MEDIA
SESSION OVERVIEW	Social networks are one of the major modes of communication today and although their basic idea is built on the concept of connecting with friends and family; the impact of these websites have far outweighed their initial uses. These are forums where people can find friends and adversaries; get connected with like-minded individuals and lead the world to change in both positive and negative ways.

ONE DAY SEMINAR ON RENEWABLE ENERGY AND ENERGY STORAGE

(11-06-2023)

DAY1	11-06-2023
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME:DR.V.N MALLESWARI DESIGNATION:PROFESSOR COLLEGE:NRIT
TOPIC	RENEWABLE ENERGY AND ENERGY STORAGE
SESSION OVERVIEW	Energy storage systems' main uses include balancing the changing load impacts of renewable energies, offering extra services such as frequency and voltage stability, maintaining a stable energy supply, and increasing dependability and spread. The most efficient large-scale storage system in operation. This is a cost-effective and proven technology that provides stability to the electrical system and can generate significant levels of clean energy with rapid response times.

A THREE DAYS WORKSHOP ON “EMBEDDED SYSTEM”

(09-02-2023 TO 11-02-2023)

DAY	<u>19-02-2023 TO 11-02-2023</u>
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D HARSHA VARDHAN ASSOCIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM”
SESSION OVERVIEW	The processor interprets the data using software stored in the computer's memory. Embedded system uses real-time operating systems (RTOS) for communicating with the hardware. The purpose of embedded systems is to control a specific function within a device. They are usually designed to only perform this function repeatedly, but more developed embedded systems can control entire operating systems

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Report on Guest Lecture on “Antennas”

The department of Electronics and Communication Engineering has conducted “Guest lecture on “Antennas” on behalf of IETE which is held on 16/12/2022. All ECE III year students came forward to participate in this event. In this world all the companies are looking for graduates who have fantastic grip responsibilities of engineers and have additional skills in their core domain. With the motive of enhancing the student’s skills, the guest lecturer in the area of Antennas has been organized by The Institution of Electronics and Telecommunication Engineers (IETE) of ECE department. Dr.G Nallathambi, HoD ECE welcomed the gathering. Mr. S Seshagiri Rao, Convener, introduced the resource person and invited Dr. R. Ramana Reddy to discuss on Antennas. Resource Person: Dr. R. Ramana Reddy Vice Principal JNTUA College of Engineering Pulivendula, Andhra Pradesh

Dr. R. Ramana Reddy explained the different wireless services that operate a wide frequency range, they show significant promise in addressing new system requirements, necessary topics the students need to concentrate, the job opportunities in antennas and wireless communications and latest research in antenna design.

All the Students of III year B.Tech ECE actively involved in the session where they recollected, related the information and effectively shared their knowledge.

After the Guest lecture on Antennas session, Dr.G Nallathambi, HoD ECE appreciated the students for their active participation in the event. Mr. S Seshagiri Rao, Convener delivered the vote of thanks

“EMPOWERMENT ESSENTIAL SKILLS TO CONQUER LIFE”

(25-02-2021)

DAY	25-02-2021
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : DR. M. V. V. SATHYA NARAYANA DESIGNATION: PROFESSOR COLLEGE: MALINENI CET
TOPIC	“EMPOWERMENT ESSENTIAL SKILLS TO CONQUER LIFE”
SESSION OVERVIEW	Empowerment is the degree of <u>autonomy</u> and <u>self-determination</u> in people and in communities. This enables them to represent their interests in a responsible and self-determined way, acting on their own authority. It is the process of becoming stronger and more confident, especially in controlling one's life and claiming one's <u>rights</u> .

AUTOCAD TRAINING

Duration: One Week

Start Date: 12th – 17nd November 2018

Venue: Gvr&s college of engineering and technology **Recommended**
Basic auto-cad Knowledge

1. Course Objective

The main objective of this training is to provide participants with knowledge and skills on using computer aided design (CAD) software to produce and use Mechanical Engineering drawings.

2. Course Organization

This training will be run into two sessions. The morning sessions will be for lectures and demonstrations then in the afternoon sessions there will be practical's.

3. Course Content

S/N	DAY	SUB-TOPICS
1	Monday -12/11/2018	<ul style="list-style-type: none">- Introduction- Touring the Interface- Opening, Viewing, Save, Creating Basic Geometry
2	Tuesday- 13/11/2018	<ul style="list-style-type: none">- Rectangular, Polygon, Ellipse, Hatch- Change Geometry, move, copy, rotate- Trim, Extend, Offset
3	Wednesday- 14/11/2018	<ul style="list-style-type: none">- Dimensioning- Creating Blocks- Text
4	Thursday- 15/11/2018	<ul style="list-style-type: none">- Layers- Fillet, Chamfer, Polar array, Rectangular array, mirror move- Stretch move, Scale move, grips move,

PRINCIPAL
GVR & S College of Engg. & Tech.
GUNTUR - 522017

5	Friday- 16/11/2018	<ul style="list-style-type: none">- Explode, P edit, edit hatch- Plotting, Layout, Line weight- Accessing Specialized tools- Sharing Data
6	Saturday- 17/11/2018	<ul style="list-style-type: none">- Explode, P edit, edit hatch- Plotting, Layout, Line weight- Accessing Specialized tools

4. Mode of Teaching

The training will be delivered through PowerPoint presentations and hands-on computer exercises using Auto Cad software.

5. Learning Outcome

At the end of this course, participants are expected to be able to:

- Understand and use drawing tools provided by Computer Aided Design (CAD) software.
- Create, edit, and print drawings using Computer Aided Design (CAD) software.

6. Award

Upon successful completion of the course, participants will be awarded a Certificate of attendance from Gvr&s college of engineering and technology on Auto Cad training.

7. Contacts

A TWO DAYS WORKSHOP ON DATABASE SYSTEM AND IMPLANTATION

DAY1 (15-11-2018)

Day	15-11-2018
Venue	Av Room,1st Floor
Resource Person	Mr.T.Ravi Assistant Professor, Priyadarshini Institute Of Technology And Science
Topic	A Two Days Workshop On Database System And Implantation
Session Overview	In The Same Session, She Had Shown Practical Implementation Of Shared Locks And Deadlock Concepts In Oracle. She Also Explained – How We Can Resolve These Problems Using Oracle 11g Version. She Had Created A Situation Of Deadlock In Front Of All Students And Also Told – How Can A DbA Can Resolve This Problem In A Industry. The Speakers Explained All The Points In Detail And Handled All The Queries With Expertise. It Was A Great Experience As The Guest Lecture Was Motivational, Informative, Interactive And Student Participated With Full Enthusiasm And Spirit.
No Of Participants	60

A ONE DAY GUEST LECTURE ON "SOFTWARE ENGINEERING"

(04-02-2019)

Day	04-02-2019
Venue	Av Room,1st Floor
Resource Person	Mr.Satish, ,Associate Professor Sri Mittapalli College Of Engineering
Topic	A ONE DAY GUEST LECTURE ON "SOFTWARE ENGINEERING"
Session Overview	Industrial Perspective on 04-02-2019 at 9:30AM. The resource person for this program was Mr.Satish The chief guest first gave an introduction about the "Software Engineering: Industrial Perspective" which gave everyone a clear view about software Engineering. He then illustrated the importance of software engineering in an industry with real time examples.

Title:	GUEST LECTURER on "Additive manufacturing"
Coordinators:	Dr.TVSRK PRASAD (professor) , Mr.G.Anil kumar(asst.prof)
No. of Participants:	All B.Tech students-65
Event Type:	ONE-DAY GUEST LECTURER
Name of Resource person	Mr. KLN MURTHY
& Details:	Professor ACE Technologies.
No. of Days Conducted and Dates :	28-01-2019
Objective of the Event:	to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.
Outcome from the Event:	Most of the students motivated and clarified their doubts regarding skills needed by the companies.
Summary of the Event:	The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry
.Feedback taken from students:	1) Resource person has provided vital information regarding requirements of core companies.
Action plan:	Department is planning to organize more guest lectures

A THREE DAY WORKSHOP ON “ENGINEERING APPLICATIONS WITH MATLAB”

Day 1 (15-11-2018)

DAY	15-11-2018
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOCIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	A programming platform designed specifically for engineering's and scientists to analyze and design systems and products that perform our world. The heart of MATLAB is the MATLAB language, a matrix-based language allowing the most natural expression of computational mathematics.
NO OF PARTICIPANTS	46

A THREE DAY WORKSHOP ON “ENGINEERING APPLICATIONS WITH MATLAB”

Day 2 (16-11-2018)

DAY	16-11-2018
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOCIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	This hands-on workshop will introduce you to data analysis and visualization in MATLAB. By working through an example, you will learn how to perform routine data analysis tasks, such as data import, manipulation, plotting, and fitting. You will perform a full data analysis workflow using interactive tools. You'll only need to write minimal amounts of MATLAB code yourself during the workshop; the interactive tools will automatically generate most of the MATLAB code required to programmatically reproduce your work.

Day 2 (17-11-2018)

DAY	17-11-2018
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOCIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	This session is targeted for those who are new to MATLAB. However, experienced MATLAB users may also benefit from the session, as the engineer will be covering some tips and tricks from the newer releases of MATLAB..

REPORT ON

WORKSHOP ON ENGINEERING APPLICATIONS WITH MATLAB

The department of ECE has organized “A Three Day Workshop on Engineering Applications with MATLAB” 15/11/2018 to 17/11/2018. Total 35 faculty members from ECE & EEE Departments were participated. The Resource person was Mr.J.Prem Kumar, Senior Application Engineer, Capricot Technologies, Hyderabad. This workshop covers basic concepts of MATLAB and its Applications in various areas.

First Day: (Fore Noon session 15/11/2018) On 15th November 2018, the proceedings began with inauguration ceremony, with the esteemed presence of Chief Guest Mr.J.Prem Kumar, HOD of ECE Department Dr PHK PRASAD, HOD of EEE Dr G Venkateswarlu, along with coordinator Mr C Leela Mohan. At very First Dr PHK PRASAD, HOD- ECE delivered welcome speech and shared his ideas on MATLAB and then Dr G Venkateswarlu, HOD – EEE addressed the participants. The Resource person had given brief overview on the three days schedule and importance of MATLAB in various image processing and signal processing applications.

First Day: (After Noon session 15/11/2018) Prof. M.Muralidhar, R&D In charge, NECN explained the basic concepts of MATLAB and its usage for current Engineering applications as well as research. He also had spoken regarding the significance of MATLAB in real time applications like signal processing and video processing applications.

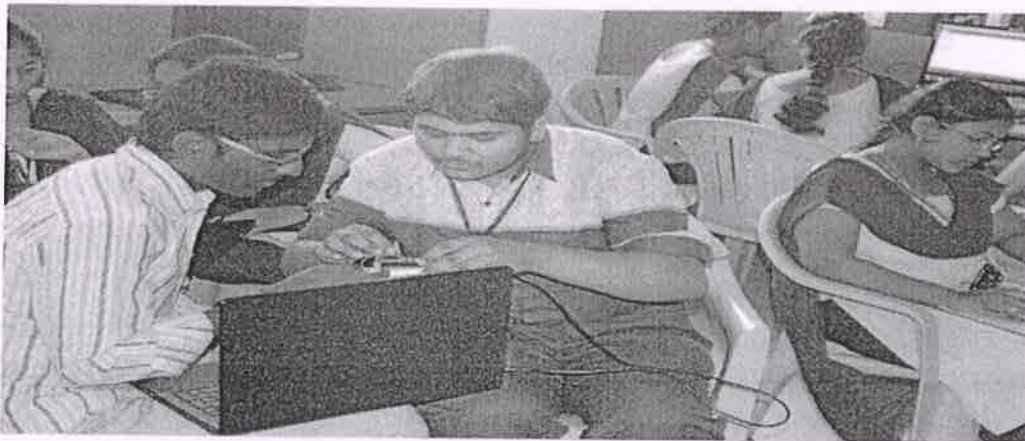

Second Day: (Fore Noon session 16/11/2018) The Resource Person Mr.J.Prem Kumar given a presentation on Engineering Applications with MATLAB and also explained the usage of MATLAB for Research and day to day activities. He had shown the virtual ROBO which was designed by him. He demonstrated on MATLAB 2018(b) software and its improvements compared to earlier version. He also explained the importance of the new additional features with some examples. He had also highlighted his own projects, done for army and PhD holders.

Second Day: (After Noon session 16/11/2018) The HOD of ECE Dr.PHK PRASAD has given a presentation on MATLAB programming and shared his PhD research problem and also explained the importance of learning MATLAB tool for ECE and EEE faculty members for doing research in the signal processing, speech processing application etc. He encouraged all the faculty members regarding publication of research paper and suggested them to publish in good reputed journals so that it will be useful for their career.

GUNTUR - 522017

Third Day: (17/11/2018) Hands On: All the participants were participated in the hands on session handled by Mr.J.Premkumar. He had given some real tie examples and asked the participants to write and execute the MATLAB code for them. All the faculty participated in the workshop with great enthusiasm and made the workshop a grand success. In valedictory function, Coordinator Mr C Leela Mohan, shared experiences about this Workshop. Some of the participants expressed their experiences in the workshop. The function ended with vote of thanks by the coordinator, who expressed his gratitude towards all the dignitaries, participants and all other helping hands, which contributed towards the success of the event

REPORT ON One week online workshop on “Drone Technology” at GVR&S

One week online workshop on “Drone Technology” was organized by the department of ECE, from 3rd to 9th Feb 2020 in collaboration with APSSDC. The experts from APSSDC explained various concepts of Drone Technology related aspects right from the fundamentals for III year B.Tech ECE students.

The workshop started with a presentation on Drone Technology basics and its related fields where opportunities are abundant in the industry. The presentation clearly explained what skills are required to become a Drone Technology developer or engineer. The entire workshop was focus on designed a Drone Technology and it took totally six sessions.

The workshop resource persons initially focused on basic on the technology and then to design on related projects. The students got a chance to learn in depth about programming methodologies, debugging techniques and code dumping processes. Meanwhile the queries raised by the students were also answered in an efficient way in all the sessions by the resource persons.

The workshop participants were able to successfully code and run their programs. The workshop turned out to be a major successful event, imparting lot of knowledge about Drone Technology and how to work with various microcontrollers used to design the drones.

The Principal of GVR&S, Prof. Dr. PHK PRASAD, in the inaugural address also mentioned the demand of Drone Technology in the related fields of Electronics. Mr.P.Raghava Reddy, The head of the department of ECE (Admin), Dr.Y SRINIVASULU HOD took part in the workshop actively.

12	Signature of Co-ordinator			

A BRIEF DESCRIPTION OF THE EVENT:

The department of ECE organized a seminar on IoT and its Applications on 04th February 2019 by Mr. Basavangouda, Application Engineer, Cranes Software International Ltd, Bangalore.

Mr. Basavangouda spoke on “IoT at a glance” and highlighted the scope of the topic, its applications, future impact and spoke about several courses and job opportunities in the area. The session had an interactive QA session wherein the students quizzed him on several issues ranging from the basics, technology aspects of IoT, applications to a common man.

Discussions regarding the future of IoT in India and abroad took place between the students and the speaker. Queries were regarding the spectrum involving the devices in IoT like sensors, network, and connectivity and so on.

One particular query was regarding the possible penetration of IoT in rural India. The student asked how fast IoT could pick up and spread in rural India. The speaker addressed that, the manpower awareness is present already but the main challenge is that of internet connectivity required. Many

E-mail: gvrscet@yahoo.com, website: www.gvrscet.ac.in

places, there are not enough things and people to be connected, such as in purely agricultural belts. If IoT has to penetrate, it would be purely for dedicated applications.

IoT has a major role to play in applications which minimize human intervention required in activity. For example, in day-to-day activities such as home maintenance, alerts can be provided at various points like filling a refrigerator, buying oil for the vehicle, checking locks in the house, using purely automated mechanisms but which would seamlessly integrate with human life involved.

IoT can also help and aid individuals in learning activities, training in sports, planning, and scheduling and so on. The advantage of IoT is that it doesn't show up as a separate automated device or adage in the system, it blends naturally into the human lives so that people feel it as an integrated part of their lives and appreciate living with it. Several examples of this effect were discussed.

The presentation of the lecture was excellent, with the lecture organized into slide showing methodical divisions in the IoT area, such as the technical spectrum, the marketing issues, and a section involving government policies on IoT and so on. The presentation contained several videos which caught the attention of the students and made it very effective.

"IoT has a bright future for at least another 20 years and the focused and determined professional in the area can make it to the top and grow with the field" he said during the conclusion of the seminar.

TECH/STUDENT GUEST LECTURE 2018-19-reg

It is informed that all the students of Tech-Electrical and Electronics Engineering our college is planning to conduct GUEST LECTURE ON "BASICS OF ELECTRICAL ENGINEERING" 2018-19 events on 22-02-2019. In this regard, we invite all students and faculty members of GVR & S COLLEGE OF ENGINEERING AND TECHNOLOGY to participate and make the function a grand success.

GUEST LECTURE ON BASICS OF ELECTRICAL ENGINEERING

Date: 22-02-2019

DAY1	22-02-2019
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : Dr.J.MANOJ KUMAR DESIGNATION : Professor COLLEGE : Tirumala Engineering College
TOPIC	BASICS OF ELECTRICAL ENGINEERING
SESSION OVERVIEW	Electrical engineering is a technical discipline concerned with the study, design, and application of electricity! Through electrical engineering, we can design devices and systems using electrical components such as resistors, capacitors, transistors, etc. Electrical Engineers can design and work on items such as super low power microcontrollers, PCB Design, high power turbines, navigation systems, etc.

TWO DAYS WORKSHOP ON “TWO DAYS SEMINARS ON
“NANO TECHNOLOGY”
(08-02-2019)

DAY	08-02-2019
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : Dr. A.S.K. Chaitanya DESIGNATION : Professor COLLEGE: Malineni women's CET
TOPIC	TWO DAYS SEMINARS ON “NANO TECHNOLOGY”
SESSION OVERVIEW	Numerous advantages of nanotechnology depend on its capacity to modify materials at incredibly small scales to attain certain features that would significantly improve the materials science toolset. Considering the molecules and interacting groups of molecules in connection to the bulk macroscopic qualities of the material becomes necessary when controlling the underlying molecular structure, which provides control over the macroscopic chemical and physical properties.

GUEST LECTURE ON SOLAR MOBILE CHARGES

(12-02-2019)

DAY1	12-02-2019
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : G V RAO DESIGNATION: Sr Technical Assistant COMPANY: Prestige Group
TOPIC	SOLAR MOBILE CHARGES
SESSION OVERVIEW	The sun's energy is usually harvested through solar panels that are made up of photovoltaic cells. These cells can convert the sun's power into electricity that can be used for a number of purposes. For private use, a handheld solar hybrid charger can be employed to recharge little device for instance a MP3 player, a cell phone, or a camera.

ONE DAY WORK SHOP ON SOLAR MOBILE CHARGES

(12-02-2019)

DAY1	12-02-2019
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : Y N V SANTHOSH KUMAR DESIGNATION: Sr Technical Assistant COMPANY: IFB
TOPIC	SOLAR MOBILE CHARGES
SESSION OVERVIEW	The sun's energy is usually harvested through solar panels that are made up of photovoltaic cells. These cells can convert the sun's power into electricity that can be used for a number of purposes. For private use, a handheld solar hybrid charger can be employed to recharge little device for instance a MP3 player, a cell phone, or a camera.

AUTOCAD TRAINING

Duration: One Week

Start Date: 12th – 17nd November 2018

Venue: Gvr&s college of engineering and technology **Recommended**
Basic auto-cad Knowledge

1. Course Objective

The main objective of this training is to provide participants with knowledge and skills on using computer aided design (CAD) software to produce and use Mechanical Engineering drawings.

2. Course Organization

This training will be run into two sessions. The morning sessions will be for lectures and demonstrations then in the afternoon sessions there will be practical's.

3. Course Content

S/N	DAY	SUB-TOPICS
1	Monday -12/11/2018	<ul style="list-style-type: none">- Introduction- Touring the Interface- Opening, Viewing, Save, Creating Basic Geometry
2	Tuesday- 13/11/2018	<ul style="list-style-type: none">- Rectangular, Polygon, Ellipse, Hatch- Change Geometry, move, copy, rotate- Trim, Extend, Offset
3	Wednesday- 14/11/2018	<ul style="list-style-type: none">- Dimensioning- Creating Blocks- Text
4	Thursday- 15/11/2018	<ul style="list-style-type: none">- Layers- Fillet, Chamfer, Polar array, Rectangular array, mirror move- Stretch move, Scale move, grips move,

5	Friday- 16/11/2018	<ul style="list-style-type: none">- Explode, P edit, edit hatch- Plotting, Layout, Line weight- Accessing Specialized tools- Sharing Data
6	Saturday- 17/11/2018	<ul style="list-style-type: none">- Explode, P edit, edit hatch- Plotting, Layout, Line weight- Accessing Specialized tools

4. Mode of Teaching

The training will be delivered through PowerPoint presentations and hands-on computer exercises using Auto Cad software.

5. Learning Outcome

At the end of this course, participants are expected to be able to:

- Understand and use drawing tools provided by Computer Aided Design (CAD) software.
- Create, edit, and print drawings using Computer Aided Design (CAD) software.

6. Award

Upon successful completion of the course, participants will be awarded a Certificate of attendance from Gvr&s college of engineering and technology on Auto Cad training.

7. Contacts

A TWO DAYS WORKSHOP ON DATABASE SYSTEM AND IMPLANTATION

DAY1 (15-11-2018)

Day	15-11-2018
Venue	Av Room,1st Floor
Resource Person	Mr.T.Ravi Assistant Professor, Priyadarshini Institute Of Technology And Science
Topic	A Two Days Workshop On Database System And Implantation
Session Overview	In The Same Session, She Had Shown Practical Implementation Of Shared Locks And Deadlock Concepts In Oracle. She Also Explained – How We Can Resolve These Problems Using Oracle 11g Version. She Had Created A Situation Of Deadlock In Front Of All Students And Also Told – How Can A DbA Can Resolve This Problem In A Industry. The Speakers Explained All The Points In Detail And Handled All The Queries With Expertise. It Was A Great Experience As The Guest Lecture Was Motivational, Informative, Interactive And Student Participated With Full Enthusiasm And Spirit.
No Of Participants	60

A TWO DAYS WORKSHOP ON A TWO DAYS WORKSHOP ON "CLOUD COMPUTING"

DAY1 (26-11-2018)

Day	26-11-2018
Venue	Av Room,1st Floor
Resource Person	Mr.A.Prakash Babu Assistant Professor, Priyadarshini Institute Of Technology And Science
Topic	A TWO DAYS WORKSHOP ON "CLOUD COMPUTING"
Session Overview	Cloud Computing Systems, where data is available over the internet rather than local servers and networks are changing the face of on-demand computing. Within the next decade, half of all information technology is estimated to be in the cloud.The Cloud Computing Workshop will make participants adept at various cloud computing architectures. Live projects will help participants keep up with all technologies, tools and methodologies required to understand and work on cloud computing principles used in the IT industry.
No Of Participants	60

Title: GUEST LECTURER on "IC ENGINES"

Coordinators: Mr.P.Ravi Kumar(asst.prof) , Mr.K.Srinivasu(asst.prof)

No. of Participants: 65

Event Type: ONE-DAY GUEST LECTURER

Name of Resource person Mr. T.SAMBHASIVARAO

& Details: Professor.

No. of Days Conducted and Dates : 28-10-2018

Objective of the Event: to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.

Outcome from the Event: Most of the students motivated and clarified their doubts regarding skills needed by the companies.

Summary of the Event: The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry

.Feedback taken from students: 1) Resource person has provided vital information regarding requirements of core companies.

Action plan: Department is planning to organize more guest lectures

Title: GUEST LECTURER on "GEAR TRAIN DESIGN"

Coordinators: Dr. TVSRK PRASAD (professor) , Mr.D. Ashok(asst.prof)

No. of Participants: All B. Tech students 65

Event Type: ONE-DAY GUEST LECTURER

Name of Resource person Mr. M.KOTESWARAO

& Details: Professor ACE Technologies.

No. of Days Conducted and Dates : 17-11-2018

Objective of the Event: to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.

Outcome from the Event: Most of the students motivated and clarified their doubts regarding skills needed by the companies.

Summary of the Event: The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry

.Feedback taken from students: 1) Resource person has provided vital information regarding requirements of core companies.

Action plan: Department is planning to organize more guest lectures

A THREE DAY WORKSHOP ON “ENGINEERING APPLICATIONS WITH MATLAB”

Day 1 (15-11-2018)

DAY	15-11-2018
VENUE	AV ROOM, 1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOCIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	A programming platform designed specifically for engineering's and scientists to analyze and design systems and products that perform our world. The heart of MATLAB is the MATLAB language, a matrix-based language allowing the most natural expression of computational mathematics.
NO OF PARTICIPANTS	46

A THREE DAY WORKSHOP ON “ENGINEERING APPLICATIONS WITH MATLAB”

Day 2 (16-11-2018)

DAY	16-11-2018
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOCIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	This hands-on workshop will introduce you to data analysis and visualization in MATLAB. By working through an example, you will learn how to perform routine data analysis tasks, such as data import, manipulation, plotting, and fitting. You will perform a full data analysis workflow using interactive tools. You’ll only need to write minimal amounts of MATLAB code yourself during the workshop; the interactive tools will automatically generate most of the MATLAB code required to programmatically reproduce your work.

A THREE DAY WORKSHOP ON “ENGINEERING APPLICATIONS WITH MATLAB”

Day 2 (17-11-2018)

DAY	17-11-2018
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr D RAJINI ASSOSIATE PROFESSOR
TOPIC	“ENGINEERING APPLICATIONS WITH MATLAB”
SESSION OVERVIEW	This session is targeted for those who are new to MATLAB. However, experienced MATLAB users may also benefit from the session, as the engineer will be covering some tips and tricks from the newer releases of MATLAB..

REPORT ON

WORKSHOP ON ENGINEERING APPLICATIONS WITH MATLAB

The department of ECE has organized “A Three Day Workshop on Engineering Applications with MATLAB” 15/11/2018 to 17/11/2018. Total 35 faculty members from ECE & EEE Departments were participated. The Resource person was Mr.J.Prem Kumar, Senior Application Engineer, Capricot Technologies, Hyderabad. This workshop covers basic concepts of MATLAB and its Applications in various areas.

First Day: (Fore Noon session 15/11/2018) On 15th November 2018, the proceedings began with inauguration ceremony, with the esteemed presence of Chief Guest Mr.J.Prem Kumar, HOD of ECE Department Dr PHK PRASAD, HOD of EEE Dr G Venkateswarlu, along with coordinator Mr C Leela Mohan. At very First Dr PHK PRASAD, HOD- ECE delivered welcome speech and shared his ideas on MATLAB and then Dr G Venkateswarlu, HOD – EEE addressed the participants. The Resource person had given brief overview on the three days schedule and importance of MATLAB in various image processing and signal processing applications.

First Day: (After Noon session 15/11/2018) Prof. M.Muralidhar, R&D In charge, NECN explained the basic concepts of MATLAB and its usage for current Engineering applications as well as research. He also had spoken regarding the significance of MATLAB in real time applications like signal processing and video processing applications.

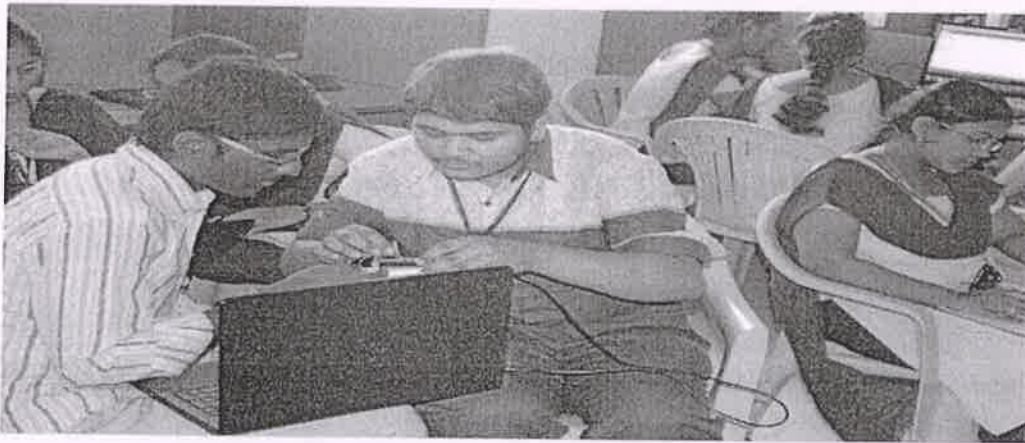

Second Day: (Fore Noon session 16/11/2018) The Resource Person Mr.J.Prem Kumar given a presentation on Engineering Applications with MATLAB and also explained the usage of MATLAB for Research and day to day activities. He had shown the virtual ROBO which was designed by him. He demonstrated on MATLAB 2018(b) software and its improvements compared to earlier version. He also explained the importance of the new additional features with some examples. He had also highlighted his own projects, done for army and PhD holders.

Second Day: (After Noon session 16/11/2018) The HOD of ECE Dr.PHK PRASAD has given a presentation on MATLAB programming and shared his PhD research problem and also explained the importance of learning MATLAB tool for ECE and EEE faculty members for doing research in the signal processing, speech processing application etc. He encouraged all the faculty members regarding publication of research paper and suggested them to publish in good reputed journals so that it will be useful for their career.

GUNTUR - 522017

Third Day: (17/11/2018) Hands On: All the participants were participated in the hands on session handled by Mr.J.Premkumar. He had given some real tie examples and asked the participants to write and execute the MATLAB code for them. All the faculty participated in the workshop with great enthusiasm and made the workshop a grand success. In valedictory function, Coordinator Mr C Leela Mohan, shared experiences about this Workshop. Some of the participants expressed their experiences in the workshop. The function ended with vote of thanks by the coordinator, who expressed his gratitude towards all the dignitaries, participants and all other helping hands, which contributed towards the success of the event

REPORT ON One week online workshop on “Drone Technology” at GVR&S

One week online workshop on “Drone Technology” was organized by the department of ECE, from 5th to 11th Feb 2019 in collaboration with APSSDC. The experts from APSSDC explained various concepts of Drone Technology related aspects right from the fundamentals for III year B.Tech ECE students.

The workshop started with a presentation on Drone Technology basics and its related fields where opportunities are abundant in the industry. The presentation clearly explained what skills are required to become a Drone Technology developer or engineer. The entire workshop was focus on designed a Drone Technology and it took totally six sessions.

The workshop resource persons initially focused on basic on the technology and then to design on related projects. The students got a chance to learn in depth about programming methodologies, debugging techniques and code dumping processes. Meanwhile the queries raised by the students were also answered in an efficient way in all the sessions by the resource persons.

The workshop participants were able to successfully code and run their programs. The workshop turned out to be a major successful event, imparting lot of knowledge about Drone Technology and how to work with various microcontrollers used to design the drones.

The Principal of GVR&S, Prof. Dr. PHK PRASAD, in the inaugural address also mentioned the demand of Drone Technology in the related fields of Electronics. Mr.P.Raghava Reddy, The head of the department of ECE (Admin), Dr.Y SRINIVASULU HOD took part in the workshop actively.

A BRIEF DESCRIPTION OF THE EVENT:

The department of ECE organized a seminar on IoT and its Applications on 04th February 2019 by Mr. Basavangouda, Application Engineer, Cranes Software International Ltd, Bangalore.

Mr. Basavangouda spoke on “IoT at a glance” and highlighted the scope of the topic, its applications, future impact and spoke about several courses and job opportunities in the area. The session had an interactive QA session wherein the students quizzed him on several issues ranging from the basics, technology aspects of IoT, applications to a common man.

Discussions regarding the future of IoT in India and abroad took place between the students and the speaker. Queries were regarding the spectrum involving the devices in IoT like sensors, network, and connectivity and so on.

One particular query was regarding the possible penetration of IoT in rural India. The student asked how fast IoT could pick up and spread in rural India. The speaker addressed that, the manpower awareness is present already but the main challenge is that of internet connectivity required. Many

places, there are not enough things and people to be connected, such as in purely agricultural belts. If IoT has to penetrate, it would be purely for dedicated applications.

IoT has a major role to play in applications which minimize human intervention required in activity. For example, in day-to-day activities such as home maintenance, alerts can be provided at various points like filling a refrigerator, buying oil for the vehicle, checking locks in the house, using purely automated mechanisms but which would seamlessly integrate with human life involved.

IoT can also help and aid individuals in learning activities, training in sports, planning, and scheduling and so on. The advantage of IoT is that it doesn't show up as a separate automated device or adage in the system, it blends naturally into the human lives so that people feel it as an integrated part of their lives and appreciate living with it. Several examples of this effect were discussed.

The presentation of the lecture was excellent, with the lecture organized into slide showing methodical divisions in the IoT area, such as the technical spectrum, the marketing issues, and a section involving government policies on IoT and so on. The presentation contained several videos which caught the attention of the students and made it very effective.

"IoT has a bright future for at least another 20 years and the focused and determined professional in the area can make it to the top and grow with the field" he said during the conclusion of the seminar.

Report on One week Online Training on “Cyber Security”

One week online workshop on “Cyber Security” was organized by the department of ECE, from 12th to 17th October 2020 in collaboration with APSSDC. The experts from APSSDC explained various concepts of Cyber Security related aspects right from the fundamentals for IV year B.Tech ECE students.

The workshop started with a presentation on Cyber Security basics and its related fields where opportunities are abundant in the industry. The presentation clearly explained what skills are required to become a Cyber Security Network engineer. The entire workshop was focus on Security algorithms and how apply it practical applications and it took totally six sessions.

The workshop resource persons initially focused on basic on the technology and then to networking and cyber security related projects. The students got a chance to learn in depth about methodologies, networking techniques and processes of cyber security. Meanwhile the queries raised by the students were also answered in an efficient way in all the sessions by the resource persons.

The workshop participants were able to successfully done the security algorithms. The workshop turned out to be a major successful event, imparting lot of knowledge about cyber security and how to work with various network issues.

The Principal of GVR&S, Prof. Dr. PHK PRASAD, in the inaugural address also mentioned the demand of cyber security in the related fields of Networking. DR .Y SRINIVASULU, The head of the department of ECE (Admin), Mr M SRIKANTH Assistant Professor took part in the workshop actively.

2018-19/STUDENTS WORK SHOP/SEMINAR 2018-19-Reg

It is informed that all the students of Science and Humanities department of our college is planning to conduct TWO DAYS SEMINAR ON “NANO TECHNOLOGY” 2018-19 events on 08-02-2019 to 09-02-2019. In this regard, we invite all students and faculty members to participate and make the function a grand success.

FIRST DAY OF WORKSHOP ON
TWO DAYS WORKSHOP ON “TWO DAYS SEMINARS ON
“NANO TECHNOLOGY”
(08-02-2019)

DAY	08-02-2019
VENUE	SEMINAR_HALL
RESOURCE PERSON	NAME : Dr. A.S.K. Chaitanya DESIGNATION : Professor COLLEGE: Malineni women's CET
TOPIC	TWO DAYS SEMINARS ON “NANO TECHNOLOGY”
SESSION OVERVIEW	Numerous advantages of nanotechnology depend on its capacity to modify materials at incredibly small scales to attain certain features that would significantly improve the materials science toolset. Considering the molecules and interacting groups of molecules in connection to the bulk macroscopic qualities of the material becomes necessary when controlling the underlying molecular structure, which provides control over the macroscopic chemical and physical properties.
NO OF PARTICIPANTS	22

GUEST LECTURE ON SOLAR MOBILE CHARGES

(12-02-2019)

DAY1	12-02-2019
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : G V RAO DESIGNATION: Sr Technical Assistant COMPANY: Prestige Group
TOPIC	SOLAR MOBILE CHARGES
SESSION OVERVIEW	The sun's energy is usually harvested through solar panels that are made up of photovoltaic cells. These cells can convert the sun's power into electricity that can be used for a number of purposes. For private use, a handheld solar hybrid charger can be employed to recharge little device for instance a MP3 player, a cell phone, or a camera.

REPORT ON

A Six Day Hands On Workshop

On

“Amazon Web Services-Alexa” at GVR&S

A Six day workshop on Amazon Web Services was organized by the department of ECE, from 23rd to 28th September 2019 in collaboration with APSSDC. The experts from APSSDC explained various concepts of Amazon Web Services related aspects right from the fundamentals for III year B.Tech ECE students.

The workshop started with a presentation on introduction to Amazon Alexa and origin of Amazon Web Services. The presentation clearly explained the origin of AWS and services are provided by the Amazon Web Services. The entire workshop includes concepts of Cloud computing, EC2 services in AWS, Auto Scaling, Simple Storage ServicesS3, Creation of Window Server, Python Programming, Lambda services in AWS, Introduction to Alexa and programming in Amazon Developer Account. Equal emphasis was given to all the concepts in the workshop.

The students got a chance to learn in depth about Python programming, Alexa introduction and programming in Amazon developer Account. Meanwhile the queries raised by the students were also answered in an efficient way in all the sessions by the resource persons.

The Principal of GVR&S, Prof. Dr.PHK PRASAD, in the inaugural address also mentioned the demand of Amazon Web Services and the job opportunities. Dr.Y SRINIVASULU HOD, ECE, Mr.U.Penchalaiah, Asst. Professor and P.Madhavi, Asst.Prof of ECE also took part in the workshop actively.

Title:	GUEST LECTURE on "RECENT TRADES IN MECHANICAL MEASUREMENTS"
Coordinators:	Mr.P.Ravi Kumar(asst.prof) , Mr.K.Srinivasu(asst.prof)
No. of Participants:	82
Event Type:	ONE-DAY GUEST LECTURER
Name of Resource person	Mr. T.SANTHA RAO
& Details:	Professor ACE Technologies.
No. of Days Conducted and Dates :	11-10-2019
Objective of the Event:	to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.
Outcome from the Event:	Most of the students motivated and clarified their doubts regarding skills needed by the companies.
Summary of the Event:	The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry
.Feedback taken from students:	1) Resource person has provided vital information regarding requirements of core companies.
Action plan:	Department is planning to organize more guest lectures

A ONE DAY SEMINAR ON AMAZON WEB SERVICES

(05-02-2020)

Day	05-02-2020
Venue	Av Room,1st Floor
Resource Person	A.Ramesh Babu Associate Professor
Topic	One Day Seminar On "Amazon Web Services"
Session Overview	This Hands-On Workshop Provides You With An Introduction To Core Aws Services Ranging From Networking And Compute To Databases And Storage. After A Short Presentation, We Will Build A Three-Tiered Web Application Together. We Will Cover Networking And Compute With The First Lab, Using Services Such As Amazon Vpc And Amazon Ec2, While In The Second Lab We'll Explore Amazon Aurora And Amazon S3 For Databases And Storage Topics
No Of Participants	50

REPORT ON

A Five Day hands on training on Machine Learning using Python Programming

A Five day workshop on “Hands on training in Python programming” was organized for B.Tech II Year ECE students by the department of ECE in association with VSS innovation technologies, Bangalore at New Seminar hall from 10th to 14th July 2019. Mr.G.Sasidhar, Mr. D. Venkata Sai, Honorary VSS innovation technologies, Bangalore and Mr. Nikhil Reddy were the technical trainers for this workshop. Total 100 students were participated in this workshop. This workshop aimed to provide a strong hold in base of python programming.

The HOD of ECE department, Dr Y Srinivasulu enlightened the B.Tech II year ECE students about python programming and its related fields where opportunities are abundant in the industry.

The workshop resource person Mr. D.Venkata Sai, initially focused on fundamental concepts of base of python programming. The Workshop comprises of a series of lectures and practical exercises. The students got a chance to learn in depth about python programming which in turn helps them to apply it in practice or as a foundation to a deeper study in this area.

In detailed demonstrations were given on various Applications and techniques like Unsupervised learning and Supervised learning, ensemble learning. The workshop turned out to be a major successful event, imparting lot of knowledge about Machine Learning and its Applications.

REPORT ON ONE DAY WEBINAR "OVERVIEW ON VLSI"

The Department of R&D and ECE of GVR&S COLLEGE OF ENGINEERING AND TECHNOLOGY jointly organized a One day Webinar "Overview on VLSI" on Thursday, 4th June, 2020 in Online for Academicians and students.

Faculty from various states such as Tamilnadu, Karnataka, Telangana and Andhra Pradesh have reserved and participated in the webinar. 487 Participants are actively participated in the webinar.

Main Content of Webinar:

- Introduction of VLSI and VLSI Design
- Identification of problems for Research
- Case studies of various research

Details of Resource Person:

Dr. K.Venkata Ramanaiah is currently working as Professor & Head of the Department of Electronics and Communication Engineering, Y.S.R Engineering College of Yogi Vemana University, Proddatur. Prior to this he worked as principal at Narayana Engineering College, Gudur. He is having more than 26 years of experience in teaching. His areas of research interests include Low Power VLSI design architectures, Image Processing, Neural Network Based Image Compression etc. He published papers in more than 110 International and National journals and 30 Internationals conferences.

He Received Adarsh Vidya Saraswati Rashtriya Puraskar National award from Global Management Council in July-2018. He obtained his Ph.D from JNT University of Hyderabad in 2009. He did his Ph.D under the esteemed guidance of Dr. K. Lal Ksihore (Ex Vice Chancellor of JNT University Anantapur), M.Tech from JNTU College of Engineering Kukatpally Hyderabad in 1998. & B.E from KBNCE Gulbarga University Gulbarga 1992.

REPORT ON

A Six Day Hands On Workshop

On

“Amazon Web Services-Alexa” at GVR&S

A Six day workshop on Amazon Web Services was organized by the department of ECE, from 23rd to 28th September 2019 in collaboration with APSSDC. The experts from APSSDC explained various concepts of Amazon Web Services related aspects right from the fundamentals for III year B.Tech ECE students.

The workshop started with a presentation on introduction to Amazon Alexa and origin of Amazon Web Services. The presentation clearly explained the origin of AWS and services are provided by the Amazon Web Services. The entire workshop includes concepts of Cloud computing, EC2 services in AWS, Auto Scaling, Simple Storage ServicesS3, Creation of Window Server, Python Programming, Lambda services in AWS, Introduction to Alexa and programming in Amazon Developer Account. Equal emphasis was given to all the concepts in the workshop.

The students got a chance to learn in depth about Python programming, Alexa introduction and programming in Amazon developer Account. Meanwhile the queries raised by the students were also answered in an efficient way in all the sessions by the resource persons.

The Principal of GVR&S, Prof. Dr.PHK PRASAD, in the inaugural address also mentioned the demand of Amazon Web Services and the job opportunities. Dr.Y SRINIVASULU HOD, ECE, Mr.U.Penchalaiah, Asst. Professor and P.Madhavi, Asst.Prof of ECE also took part in the workshop actively.

Title:	GUEST LECTURE on "RECENT TRADES IN MECHANICAL MEASUREMENTS"
Coordinators:	Mr.P.Ravi Kumar(asst.prof) , Mr.K.Srinivasu(asst.prof)
No. of Participants:	82
Event Type:	ONE-DAY GUEST LECTURER
Name of Resource person	Mr. T.SANTHA RAO
& Details:	Professor ACE Technologies.
No. of Days Conducted and Dates :	11-10-2019
Objective of the Event:	to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.
Outcome from the Event:	Most of the students motivated and clarified their doubts regarding skills needed by the companies.
Summary of the Event:	The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry
.Feedback taken from students:	1) Resource person has provided vital information regarding requirements of core companies.
Action plan:	Department is planning to organize more guest lectures

A ONE DAY SEMINAR ON AMAZON WEB SERVICES

(05-02-2020)

Day	05-02-2020
Venue	Av Room, 1st Floor
Resource Person	A.Ramesh Babu Associate Professor
Topic	One Day Seminar On "Amazon Web Services"
Session Overview	This Hands-On Workshop Provides You With An Introduction To Core Aws Services Ranging From Networking And Compute To Databases And Storage. After A Short Presentation, We Will Build A Three-Tiered Web Application Together. We Will Cover Networking And Compute With The First Lab, Using Services Such As Amazon Vpc And Amazon Ec2, While In The Second Lab We'll Explore Amazon Aurora And Amazon S3 For Databases And Storage Topics
No Of Participants	50

REPORT ON

A Five Day hands on training on Machine Learning using Python Programming

A Five day workshop on “Hands on training in Python programming” was organized for B.Tech II Year ECE students by the department of ECE in association with VSS innovation technologies, Bangalore at New Seminar hall from 10th to 14th July 2019. Mr.G.Sasidhar, Mr. D. Venkata Sai, Honorary VSS innovation technologies, Bangalore and Mr. Nikhil Reddy were the technical trainers for this workshop. Total 100 students were participated in this workshop. This workshop aimed to provide a strong hold in base of python programming.

The HOD of ECE department, Dr Y Srinivasulu enlightened the B.Tech II year ECE students about python programming and its related fields where opportunities are abundant in the industry.

The workshop resource person Mr. D.Venkata Sai, initially focused on fundamental concepts of base of python programming. The Workshop comprises of a series of lectures and practical exercises. The students got a chance to learn in depth about python programming which in turn helps them to apply it in practice or as a foundation to a deeper study in this area.

In detailed demonstrations were given on various Applications and techniques like Unsupervised learning and Supervised learning, ensemble learning. The workshop turned out to be a major successful event, imparting lot of knowledge about Machine Learning and its Applications.

REPORT ON

ONE DAY WEBINAR "OVERVIEW ON VLSI"

The Department of R&D and ECE of GVR&S COLLEGE OF ENGINEERING AND TECHNOLOGY jointly organized a One day Webinar "Overview on VLSI" on Thursday, 4th June, 2020 in Online for Academicians and students.

Faculty from various states such as Tamilnadu, Karnataka, Telangana and Andhra Pradesh have reserved and participated in the webinar. 487 Participants are actively participated in the webinar.

Main Content of Webinar:

- Introduction of VLSI and VLSI Design
- Identification of problems for Research
- Case studies of various research

Details of Resource Person:

Dr. K.Venkata Ramanaiah is currently working as Professor & Head of the Department of Electronics and Communication Engineering, Y.S.R Engineering College of Yogi Vemana University, Proddatur. Prior to this he worked as principal at Narayana Engineering College, Gudur. He is having more than 26 years of experience in teaching. His areas of research interests include Low Power VLSI design architectures, Image Processing, Neural Network Based Image Compression etc. He published papers in more than 110 International and National journals and 30 Internationals conferences.

He Received Adarsh Vidya Saraswati Rashtriya Puraskar National award from Global Management Council in July-2018. He obtained his Ph.D from JNT University of Hyderabad in 2009. He did his Ph.D under the esteemed guidance of Dr. K. Lal Kshihore (Ex Vice Chancellor of JNT University Anantapur), M.Tech from JNTU College of Engineering Kukatpally Hyderabad in 1998. & B.E from KBNCE Gulbarga University Gulbarga 1992.

A TWO DAY'S WORKSHOP ON BLOCK CHAIN TECHNOLOGY

DAY 1 (12-11-2020)

DAY	12-11-2020
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	M.Chiranjeevi Assosiate Professor
TOPIC	A TWO DAYS WORKSHOP ON "BLOCK CHAIN TECHNOLOGY"
SESSION OVERVIEW	The block chain technology has shown huge potential in financial applications. It is expected in near future that the block chain technology along with cryptographic primitives can reshape e-governance, healthcare, Smart IOT applications with respect to security, privacy, efficiency, transparency and fault-resistances.
NO OF PARTICIPANTS	50

ONE DAYS SEMINAR ON JAVA VERSION DEVELOPMENT

(06-02-2021)

DAY	06-02-2021
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	B.SHANKAR Assosiate Professor
TOPIC	ONE DAY SEMINAR ON JAVA VERSION DEVELOPMENT
SESSION OVERVIEW	The session was informative and it helps to empower the student's programming skills and knowledge. This workshop, designed for those who already know how to program, gave participants a basic background in Java programming in order to design and build simple Java programs. Participants gained a familiarity with standard Java references and the family of Java technologies and enough skill and confidence to undertake progressively more complex Java projects on their own.

NON-DESTRUCTIVE TESTING AND QUALITY CONTROL

Duration: TWO DAYS

Start Date: 21st – 22nd December 2020

Venue: Gvr&s college of engineering and technology

1. Course Objective

The main objective of this training is to provide participants with knowledge and skills on using NDT to produce and use Mechanical Engineering Testing .

2. Course Organization

This training will be run into two sessions. The morning sessions will be for lectures and demonstrations then in the afternoon sessions there will be practical's.

3. Mode of Teaching

The training will be delivered through PowerPoint presentations and hands-on computer exercises using Auto Cad software.

4. Contacts

For more information and enquiries, please do not hesitate to reach out to us through our contact information below.

Title:	GUEST LECTURER on "ROCK WELL HARDNESS TEST "
Coordinators:	Dr.TVSRK PRASAD (professor) , Mr.G.Anil kumar(asst.prof)
No. of Participants:	All B.Tech students-77
Event Type:	ONE-DAY GUEST LECTURER
Name of Resource person	Mr. NVV SATYANARAYANA
& Details:	Professor.
No. of Days Conducted and Dates :	28-01-2021
Objective of the Event:	to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.
Outcome from the Event:	Most of the students motivated and clarified their doubts regarding skills needed by the companies.
Summary of the Event:	The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry
.Feedback taken from students:	1) Resource person has provided vital information regarding requirements of core companies.
Action plan:	Department is planning to organize more guest lectures

A ONE WEEK WORKSHOP ON “EMBEDDED SYSTEM-WITH ARDUINO”

(16-03-2020 TO 21-03-2020)

DAY	16-03-2020 TO 21-03-2020
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr R KIRAN KUMAR ASSOCIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM -WITH ARDUINO”
SESSION OVERVIEW	The hardware part of Arduino comprises Arduino boards, input and output devices (including digital and analog pins, and sensors and actuators), shields, breadboards, jumper wires, and so on. These components can be combined together to create dynamic and interactive projects. The software is made up of the development tools used to write, debug, compile, and upload code to Arduino boards. Most Of the software tools can be found in the Arduino IDE

**A ONE WEEK WORKSHOP ON “EMERGING TRENDS IN COMMUNICATION SYSTEMS
AND SIGNAL PROCESSING”**

(14-09-2020 TO 19-09-2020)

DAY	14-09-2020 TO 19-09-2020
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr PAN KUMAR REDDY S ASSOCIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM -WITH ARDUINO”
SESSION OVERVIEW	Terahertz (THz)-band communications are a key enabler for future-generation wireless communication systems that promise to integrate a wide range of data-demanding applications. Recent advances in photonic, electronic, and plasmatic technologies are closing the gap in THz transceiver design. Consequently, prospect THz signal generation, modulation, and radiation methods are converging, and corresponding channel model, noise, and hardware-impairment notions are emerging. Such progress establishes a foundation for well-grounded research into THz-specific signal processing techniques for wireless communications

Report on

One Week Workshop on Emerging trends in Communication Systems and Signal Processing

One Week Workshop on “**Emerging trends in Communication Systems and Signal Processing**” was organized under the department of Electronics and Communication Engineering at GVR&S COLLEGE OF ENGINEERING & TECHNOLOGY From 13-02-2023 & 18-02-2023 in association with IETE sub center, Tirupati and SAK Informatics, Hyderabad. The resource person Mr.N.Vamsi Krishna, SAK Informatics, Hyderabad . Total 63 students from IV B.Tech ECE are attended the Workshop.

After inaugural session resource person briefed out concepts such as Communication system design Technology, design flow and architectural level optimization techniques such as pipelining, parallelism and hands-on MATLAB programming. In few sessions also conduct the hands-on training on MATLAB -based implementation and discussion was on recent trends in Communication system domain and research issues. Finally students learn the concepts of Robotics and also discussed about Power reduction in spintronic devices.

After the end of the sessions students gain better practical exposure on Communication system projects and research activities in Emerging trends in Communication system and signal processing In the valedictory session speaker was facilitated and a vote of thanks was presented by workshop coordinator.

Resource person: Mr.N.Vamsi Krishna

ONE DAY WORK SHOP ON SMART IRRIGATION USING IOT

(09-02-2021)

DAY1	09-02-2021
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME ; Dr. A ANURADHA DESIGNATION : Professor COLLEGE : VIGNAN CET
TOPIC	SMART IRRIGATION USING IOT
SESSION OVERVIEW	Automated irrigation systems are essential for conservation of water, this improvement could have a vital role in minimizing water usage. Agriculture and farming techniques is also linked with IOT and automation, to make the whole processes much more effective and efficient. Sensory systems helped farmers better understand their crops and reduced the environmental impacts and conserve resources.

ONE DAYS SEMINAR ON JAVA VERSION DEVELOPMENT

(06-02-2021)

DAY	06-02-2021
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	B.SHANKAR Assosiate Professor
TOPIC	ONE DAY SEMINAR ON JAVA VERSION DEVELOPMENT
SESSION OVERVIEW	The session was informative and it helps to empower the student's programming skills and knowledge. This workshop, designed for those who already know how to program, gave participants a basic background in Java programming in order to design and build simple Java programs. Participants gained a familiarity with standard Java references and the family of Java technologies and enough skill and confidence to undertake progressively more complex Java projects on their own.

NON-DESTRUCTIVE TESTING AND QUALITY CONTROL

Duration: TWO DAYS

Start Date: 21st – 22nd December 2020

Venue: Gvr&s college of engineering and technology

1. Course Objective

The main objective of this training is to provide participants with knowledge and skills on using NDT to produce and use Mechanical Engineering Testing .

2. Course Organization

This training will be run into two sessions. The morning sessions will be for lectures and demonstrations then in the afternoon sessions there will be practical's.

3. Mode of Teaching

The training will be delivered through PowerPoint presentations and hands-on computer exercises using Auto Cad software.

4. Contacts

For more information and enquiries, please do not hesitate to reach out to us through our contact information below.

Title:	GUEST LECTURER on "ROCK WELL HARDNESS TEST "
Coordinators:	Dr.TVSRK PRASAD (professor) , Mr.G.Anil kumar(asst.prof)
No. of Participants:	All B.Tech students-77
Event Type:	ONE-DAY GUEST LECTURER
Name of Resource person	Mr. NVV SATYANARAYANA
& Details:	Professor.
No. of Days Conducted and Dates :	28-01-2021
Objective of the Event:	to investigate the students' increased competence in the core industry by determining the demands and expectations of the companies.
Outcome from the Event:	Most of the students motivated and clarified their doubts regarding skills needed by the companies.
Summary of the Event:	The workings of mechanical engineers in key industries and opportunities in steel, electricity, and refinery plants, among other places, have been explained by the resource person. talked on what graduates should expect from core industry
Feedback taken from students:	1) Resource person has provided vital information regarding requirements of core companies.
Action plan:	Department is planning to organize more guest lectures

A ONE WEEK WORKSHOP ON “EMBEDDED SYSTEM-WITH ARDUINO”

(16-03-2020 TO 21-03-2020)

DAY	16-03-2020 TO 21-03-2020
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr R KIRAN KUMAR ASSOSIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM -WITH ARDUINO”
SESSION OVERVIEW	The hardware part of Arduino comprises Arduino boards, input and output devices (including digital and analog pins, and sensors and actuators), shields, breadboards, jumper wires, and so on. These components can be combined together to create dynamic and interactive projects. The software is made up of the development tools used to write, debug, compile, and upload code to Arduino boards. Most Of the software tools can be found in the Arduino IDE

**A ONE WEEK WORKSHOP ON “EMERGING TRENDS IN COMMUNICATION SYSTEMS
AND SIGNAL PROCESSING”**

(14-09-2020 TO 19-09-2020)

DAY	14-09-2020 TO 19-09-2020
VENUE	AV ROOM,1st FLOOR
RESOURCE PERSON	Dr PAN KUMAR REDDY S ASSOCIATE PROFESSOR
TOPIC	“EMBEDDED SYSTEM -WITH ARDUINO”
SESSION OVERVIEW	Terahertz (THz)-band communications are a key enabler for future-generation wireless communication systems that promise to integrate a wide range of data-demanding applications. Recent advances in photonic, electronic, and plasmatic technologies are closing the gap in THz transceiver design. Consequently, prospect THz signal generation, modulation, and radiation methods are converging, and corresponding channel model, noise, and hardware-impairment notions are emerging. Such progress establishes a foundation for well-grounded research into THz-specific signal processing techniques for wireless communications

Report on

One Week Workshop on Emerging trends in Communication Systems and Signal Processing

One Week Workshop on “**Emerging trends in Communication Systems and Signal Processing**” was organized under the department of Electronics and Communication Engineering at GVR&S COLLEGE OF ENGINEERING & TECHNOLOGY From 13-02-2023 & 18-02-2023 in association with IETE sub center, Tirupati and SAK Informatics, Hyderabad. The resource person Mr.N.Vamsi Krishna, SAK Informatics, Hyderabad . Total 63 students from IV B.Tech ECE are attended the Workshop.

After inaugural session resource person briefed out concepts such as Communication system design Technology, design flow and architectural level optimization techniques such as pipelining, parallelism and hands-on MATLAB programming. In few sessions also conduct the hands-on training on MATLAB -based implementation and discussion was on recent trends in Communication system domain and research issues. Finally students learn the concepts of Robotics and also discussed about Power reduction in spintronic devices.

After the end of the sessions students gain better practical exposure on Communication system projects and research activities in Emerging trends in Communication system and signal processing In the valedictory session speaker was facilitated and a vote of thanks was presented by workshop coordinator.

Resource person: Mr.N.Vamsi Krishna

“EMPOWERMENT ESSENTIAL SKILLS TO CONQUER LIFE”

(25-02-2021)

DAY	25-02-2021
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME : DR. M. V. V. SATHYA NARAYANA DESIGNATION: PROFESSOR COLLEGE: MALINENI CET
TOPIC	“EMPOWERMENT ESSENTIAL SKILLS TO CONQUER LIFE”
SESSION OVERVIEW	Empowerment is the degree of <u>autonomy</u> and <u>self-determination</u> in people and in communities. This enables them to represent their interests in a responsible and self-determined way, acting on their own authority. It is the process of becoming stronger and more confident, especially in controlling one's life and claiming one's <u>rights</u> .

(09-02-2021)

DAY1	09-02-2021
VENUE	SEMINAR HALL
RESOURCE PERSON	NAME ; Dr. A ANURADHA DESIGNATION : Professor COLLEGE : VIGNAN CET
TOPIC	SMART IRRIGATION USING IOT
SESSION OVERVIEW	Automated irrigation systems are essential for conservation of water, this improvement could have a vital role in minimizing water usage. Agriculture and farming techniques is also linked with IOT and automation, to make the whole processes much more effective and efficient. Sensory systems helped farmers better understand their crops and reduced the environmental impacts and conserve resources.
